pcsw_note	Hello. We are representatives from PCSW, Government of Punjab. The government has started a new service called Job Asaan. This is an employment assistance service that helps employers find qualified applicants for vacancies and applicants find better jobs. If you have any vacancies at your organization, now or later, we will list them down and help you find a pool of candidates for them. In addition, we also provide an applicant screening service. This will help you substantially reduce the time and cost you spend on recruitment. When you sign up to JA, you will also be signed up to another recruitment service called Job Talash. Both services help connect employers and jobseekers but are just different in terms of how they enroll jobseekers. Since this service is new, it is being offered for free to all companies which complete our survey. If you have vacancies that you want to list, we'll sign you up right now and you can start availing our services immediately.	
pcsw_signup (required)	Would you like to sign up for our service?	1 Yes

signup_note	Great! We will first ask you a few questions about how we can help you fill current positions. This will take approximately 10 minutes. We will then get you signed up for Job Asaan and will create your company profile. This will take approximately 30 minutes of your time. The information obtained by signing you up for Job Asaan will be used by PCSW to improve their services, and for research on employment practices in Lahore. Information collected from your organization will be strictly confidential and only our team will have access to it . Some specific information about available vacancies can be shared with potential candidates when Job Asaan lists ads for these vacancies. This will help your organization recruit employees for vacant positions. It is not compulsory for you to answer any question. At any time, you can choose to end this questionnaire and opt out. We will also follow up with your organization in the future to ask about the organization and hiring. <i>Question relevant when: \${pcsw_signup} = 1</i>
